

Smile Team

Smile Planner for the whole Wedding Party

Enhancing Lives With Beautiful Smiles

THE COUNTDOWN TO YOUR
WEDDING DAY HAS BEGUN.....

The Venue is booked, your Dress,
Hair and Make-up are perfect,
BUT....

What about your Smile?

Your Wedding Day is the most important
and special day of your life so why not add
a sparkling white smile for that perfect
finishing touch.

Here at the Smile Team we can help solve
all your Wedding Party's dental problems
however near to the big day

We have designed a step by step guide
with treatments that can be taken up from
six months prior to your wedding to only a
few days before to ensure you have a
radiant smile in those memorable
photographs

For Healthy Bright Smiles use the
Smile Team Planner

6 Months :- Implants

If you have any spaces that show when
you smile or loose dentures then you
would benefit by having titanium

implants. They are easily placed into the jaw bone as an artificial tooth root onto which porcelain teeth or dentures can be placed.

5 Months :- Smile Makeovers

Do you hide a mouth of discoloured, misshapen and crooked teeth? If so then using high quality crowns and veneers, individually designed for you, we can give you a Smile to be proud of.

4 Months :- Vistabel (Botox) and Restylane

Give yourself a more youthful appearance with our anti wrinkle and filler treatments. Banish those wrinkles with Botox which relaxes the facial muscles leaving a smoother and softer face. Enhance your best facial features with Restylane which plumps out lines and wrinkles. These treatments last between three and eight months and may need a second application so don't delay start today.

3 Months :- Computer Designed Crown and Bridge work

Start a programme of replacing old and unsightly crowns and bridges with the latest in strong highly aesthetic porcelain restorations. Even better we can do most crowns in one appointment.

2 Months :- White Fillings

Why not replace old black mercury fillings with high quality porcelain inlays or white composites and smile with ease.

1 Month :- Top up Facial Treatments

It's time for that second application to ensure you are wrinkle free on the day.

2 Weeks :- Whiten your Smile

Brighten your teeth with our excellent home whitening treatment. It is simple to use and very effective. Gel is applied to trays and worn for a few hours a day over a two week period and this will lighten teeth considerably

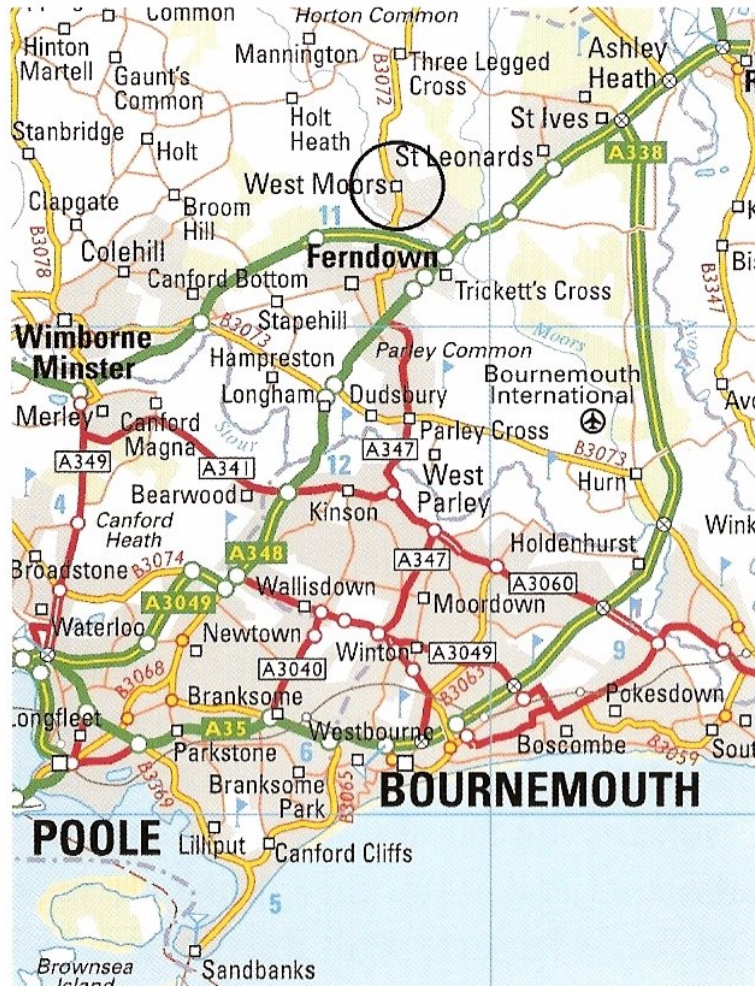

1 Week :- Instant Whitening

Zoom 2! Can dramatically whiten your teeth in an hour. It's a fast effective and safe chairside procedure. An ideal treatment to squeeze into your busy schedule.

Days Before :- Descale and Polish

A trip to our Hygienist will remove any staining and polishing will give an instant lift to dull teeth.
